## F O R E W O R D

The Indian Law Institute, State Unit, Allahabad is happy to present this volume relating to Higher Education. It is in further pursuance of our project 'Law relating to University Education'.

The promulgation of the U.P. Higher Education Services Commission Act, 1980 by the State Legislature is a dynamic step by way of encroaching upon the rights of management of the Institutions for the benefit of the teaching community so that merit is recognised as a test in making appointments of teachers. I have every hope that the Services Commission will fulfil the task with distinction which they have been called upon to perform. This volume containing the Act and the Rules will assist the teachers to have knowledge of their rights and duties. It will be of great help to the lawyers and the courts in order to enable them to get the laudible object achieved.

( S. D. AGARWALA )  
Executive Chairman.
