

HOW TO USE THE REFERENCER

This Referencer consists of two parts as follows:

1. General Statutory Rules and Orders. pp. 1-358
2. Index
 - (a) Central Acts pp. 359-375
 - (b) Central delegated legislation pp. 376-380

The index will inform the reader under which provision of a statute a notification has been issued and the corresponding page number of the Referencer on which it has been listed. For e.g., if a reader wishes to know whether any notifications have been issued under the Apprentices Act, 1961, on going to the index at p. 359, she will find that a notification was issued under S. 37 (1) of the Act vide GSR 24(E) and is listed at p.101 of the Referencer.

The Referencer partially updates the Ministry of Law General Statutory Rules and Orders (GSRO) volumes. Immediately after a notification is listed in the Referencer, information is given on the notifications issued under a statutory provision subsequent to the publication of the Law Ministry volume in which that statute was included. However, information on earlier notifications is given only if any notification under the statutory provision was issued in 1982. For e.g., the Customs Act, 1962 was included in volume 22 of the GSRO volumes, which included notifications issued upto March, 1977. As notifications were issued under S.25(1) of the Act in 1982, information on notifications under this provision from April, 1977 to December, 1981 is given to the reader immediately after GSR 144 at p. 19 which is the first notification issued in 1982.
