

## **EXPLANATORY NOTE**

**In the light of the suggestions made by our readers the structural format of the 1982 Referencer has been altered and re-modelled. Though the Referencer still consists of two parts, the alphabetical list of the Central Statutes and Central Delegated Legislation referenced now stand included in the first part, whereas the Tables of Statutory Rules and Orders are in the second part.**

**With regard to Statutory provisions under which notifications were issued in both 1982 and 1983, the current Referencer does not repeat the information on the earlier notifications already furnished in the 1982 referencer but just provides the relevant reference to it.**

**In accordance with a suggestion of the Parliamentary Committee on Subordinate Legislation, concerned Ministries are required to provide references vis-a-vis earlier notifications issued under a statutory provision in the Gazette. Wherever such information has been provided in the 1982 and 1983 Gazettes, reference to the same has been made at appropriate places in the Referencer.**
