

Acknowledgment

This work is an outcome of my involvement with the water law studies at the Institute over the last two years. It is hoped that this book will provide the necessary theoretical foundation to the other works in the Water Project, since they share the same legal policy perspective.

I am grateful to Prof. Upendra Baxi who not only gave me an opportunity to work on the project, but who, through his own exemplary conduct, taught me how to be a 'door-mat' for the sake of growth of knowledge. This emulation could not have occurred without the active cooperation of Prof. Alice Jacob, to whom I owe a deep sense of gratitude.

An inquiry into the basic issues would not have been possible if my colleagues in the project had not simultaneously begun looking at the various aspects of water laws and allowed me to learn from their works. My sincere thanks, therefore, to Mr. P.K. Chaudhary, Ms. Rema Devi P., Mr. Furquan Ahmed, Ms. Rita Aryan, Dr. Kiran Jain, Mr. Iqbal Ahmad Siddiqui, Ms. Manjula Batra, Ms. M.S. Vani and Dr. B.R. Chauhan, a competent team, indeed, with which it has been my privilege to work.

Nothing, of course, of what I wish to say would have been visible without the typing competence of Ms. Neena Bansal, whom I wish to personally thank. Finally, without the expert proof-reading by Ms. Usha Ramanathan, the work could not have taken a worthwhile shape. To her I shall remain eternally obliged.
