

## CONTENTS

<i>Foreword</i>	iii
<i>Preface</i>	v
<i>List of Contributors</i>	vii
<i>Table of Cases</i>	xix
<b>1. Computers and the Internet</b>	<b>1</b>
Introduction	1
General introduction to computers	1
Computer system	1
The binary system	2
Textual data representation	4
Working of computers	5
CPU	5
Control Unit (CU)	5
Arithmetic and Logic Unit (ALU)	5
Memory	5
Storage	6
Main memory	6
Dynamic RAM	6
Static RAM	7
Read Only Memory (ROM)	7
Linear storage magnetic media	7
Magnetic disk	8
Floppy diskettes	8
Program and software	9
Main categories of software	9
System support programs	9
Low level languages	9
High level languages	10
File	10
Types of files	11
Operating system	12
GUI (graphical user interface)	13
The personal computer (PC)	13
Databases	14
Multimedia	14
Data communications	15
Computer networking	16
Forms of data transmission	16
Digital and analog transmission	16
Media for data transmission	17
Local area networks	18
Wide area network	18
Network applications	19

Network protocols	20
The Internet	22
The Internet protocols	24
Domain and host names	25
A typical Web connection	26
WWW	27
Browser software	28
HTML	30
Other important services over TCP/IP	31
File transfer	31
Remote login	32
Electronic mail	32
Firewalls	33
Security threat	35
Computer security - fundamental goals	36
Security model	38
Security standard - BS 7799 OR ISO 17799	39
Secure communications	40
Cryptography	41
How PKC Works	43
RSA algorithm	45
Security of RSA	45
Breaking RSA	46
Digital signatures	46
Implementation of digital signatures	47
Need for digital signatures	48
Digital certificate	48
<b>2. E-Commerce: A new Business Paradigm</b>	<b>51</b>
Defining e-commerce	51
E-commerce: an online approach	53
Business-to-business (B2B)	53
Business-to-consumer (B2C)	53
Consumer-to-business (C2B)	54
Consumer-to-consumer (C2C)	54
E-commerce and business process reengineering	55
E-sourcing	56
E-governance: a government-citizen interface	56
E-commerce: success or failure?	57
Changing face of e-commerce	58
E-commerce and taxation	62
Uniqueness of e-commerce taxation	63
E-commerce revisited	64
E-commerce: Phase I	64
E-commerce: Phase II	65
<b>3. Online Contracts</b>	<b>67</b>
Synopsis	67
Online contracts: the most plausible situations	71
Simple communication between two computers	71

Communication through server or servers	72
The Information Technology Act, 2000: ramifications on online contracts	76
Choice of law and jurisdiction	77
Capacity of parties	78
Flaw in Consent	79
Tender vis-à-vis online contract	84
Auction sites	85
Reverse auctions	87
Formalities- writing, signature and delivery	88
Online contract: tax implications	90
B2B transactions	91
Click-wrap contracts	92
Electronic Data Interchange (EDI)	94
Conclusion	95
<b>4. Payment Mechanism in Cyberspace</b>	<b>96</b>
Introduction	96
Popular modes of e-payment	97
Credit/Debit cards	97
Secure Electronic Transaction (SET)	98
Smart card	101
DigiCash	102
Magex	104
Online payment services	105
Online banking	106
Wire transfer	107
Payment options in India	107
Legislative enactments for protecting parties using online modes of payment	108
Technological and contractual safeguards for e-payments	111
<b>5. Copyright Law and the Internet</b>	<b>113</b>
Introduction	113
Copyright in general	114
Copyright and digital technologies	115
Replication	116
Ease of transmission	116
The WIPO Internet treaties	117
Copyright protection of content on Web sites	117
Linking	118
Liability for linking under Indian law	121
Inlining	125
Inlining and Indian law	127
Framing	129
Legality of framing under Indian law	130
Content on Web sites: copyright registration	132
Protection of multimedia works	133
P2P networking	135
Napster	136

Post Napster P2P networks	137
Extent of damage by P2P networks	139
Reaction of the copyright industries	140
Indian legal landscape vis-à-vis networks like Napster, Gnutella and Kazaa	141
Management of copyright in digital environment	143
Rights management information	143
Technological protection measures	144
Legal protection against circumvention of technological measures	145
Co-existence between technological protection measures and limitations on copyright	146
Liability of Internet service providers for copyright infringement	147
ISP liability under the Copyright Act, 1957	148
ISP liability under the Information Technology Act, 2000	149
Classification of ISPs under the IT Act, 2000	150
Filtering ISP liability through the IT Act	150
How can an ISP qualify for exemption from liability for copyright infringement?	151
Lack of knowledge	151
Due diligence	151
Why are ISP s impleaded in cases of copyright infringement on the Internet?	151
<b>6. Trademark Issues on the Internet: Domain Name Dispute Resolution</b>	<b>153</b>
Introduction	153
What is a domain name?	153
Domain name - How much are they worth?	154
Domain name dispute resolution	154
Practical difficulties with traditional litigation	156
The ICANN Policy	156
The role of WIPO	157
The advantages of ICANN's Policy	157
"Bad Faith" criteria	158
WIPO cases involving complainants from India	159
Domain Name Dispute Resolution Policy: Stretching the limits?	160
New domain name extensions	160
The .biz domain name	161
ccTLD's and their growing importance	161
What are ccTLD's	162
ccTLD policies: as unique as a woman's hat	162
The Indian domain name policy	163
The gen.in category	164
The co.in subdomain	165
The firm.in subdomain	165
Dispute Resolution Policy	165
Domain Name Dispute Procedure	165
Conclusion	166

<b>7. Intellectual Property Protection of Computer Software</b>	<b>168</b>
Why protect computer software	169
Forms of protection of computer software	170
Copyright protection	171
Copyright protection of software in India	173
What can be protected through copyright	178
Protection as trade secrets	179
Patent protection of software	179
Patent protection in software – global scenario	184
Europe	184
United States	189
Japan	193
Patents software in India	195
<b>8. Cyber Privacy</b>	<b>197</b>
Introduction	197
Right to privacy	198
Legal framework for protection of privacy	199
Right to privacy under tort law	200
International Conventions	201
Right to Privacy under Indian Constitution	202
Right to privacy in the information society	204
The Council of Europe	204
The OECD Guidelines	205
The United Nations	206
United States of America	206
United Kingdom	208
Japan	209
Malaysia	209
Indian Position: Information Technology Act, 2000	209
Cyber privacy: technological insecurities	213
Cookies	214
Web bugs	216
Hacking	218
Spamming	220
Data mining	223
Technological protections against technological insecurities	224
Privacy policy	225
Conclusion	226
<b>9. Computer Crimes</b>	<b>228</b>
Introduction	228
Challenge to Laws	231
The Information Technology Act, 2000	232
Kinds of computer crimes/offences	233
Conventional crimes through computers	233
Cyber defamation	233
Digital forgery	235
Cyber pornography	237
Cyber stalking/harassment	240

Internet fraud and financial crimes	241
Auction and retail schemes online	242
Business opportunity/work-at-home schemes online	242
Identity theft and fraud	243
Credit card fraud	243
Online investment schemes	244
Issuance of false stocks	244
Market manipulation schemes	245
Pyramid or Ponzi schemes	246
Online gambling	246
Sale of illegal articles	247
Crimes committed on a computer network	249
Hacking/unauthorised access	249
Denial of service	251
Crimes relating to data alteration/destruction	252
Viruses, worms, Trojan horses and logic bombs	252
<i>Theft of Internet hours</i>	255
Salami attacks	255
Data diddling	256
Steganography	256
Crimes relating to electronic mail	258
E-mail spamming / bombing	258
E-mail spoofing	260
Law Enforcement and the Internet	260
Prevention	261
Detection of crime	264
Conclusion	265
<b>10. Dispute Resolution in Cyberspace: Determining Jurisdiction and Applicable Law</b>	<b>266</b>
Introduction	266
The advent of the Internet and its consequences	267
Multiple jurisdictions	267
Instantaneous global presence	268
Trade relations – no longer a matter of choice	268
The role of private international law	269
International treaties harmonising rules of private international law	270
The issues of jurisdiction and applicable law	271
Jurisdiction	271
Subject matter jurisdiction	272
Personal jurisdiction	272
Applicable law	273
Determining jurisdiction and applicable law for online disputes	273
Contractual disputes	274
Consumer disputes	278
Intellectual property rights	281
Copyright disputes	281
Acquisition of rights	283
Infringement of rights	284
Trademark disputes	285

Criminal disputes	289
Judicial trends in deciding online disputes	291
The US approach: due process, long arm statutes, minimum contact and the resulting 'sliding scale' theory	291
Long arm statutes	291
Minimum contact	291
'Sliding scale' theory	296
Effects theory – where is the effect of the transaction felt?	296
Crystallisation of US approach	297
The EU approach	299
Indian approach	303
Conclusion	304
<b>11. Online Dispute Resolution</b>	<b>306</b>
Introduction	306
Interest based and right based solutions	306
Alternative dispute resolution	307
Information technology	307
Online dispute resolution	308
Need for an institutional backup	309
Kinds of disputes handled in an ODR environment	310
Extent of technology used	311
Communication modes in ODR	312
E-mail	312
Discussion boards	313
Instant messaging	313
Audio conferencing	314
Video conferencing	314
Kinds of ODR	314
Blind bidding or blind negotiation	314
Online negotiation	315
Online negotiation-cum-mediation	315
Document/e-mail arbitration for disputes arising from e-commerce transactions	316
Online arbitration through video-conferencing	316
Online public opinion	316
Peer jury & panel jury	317
Generating e-confidence – disclosure-based approach	318
Legal concerns	320
Concluding remarks	321
<b>12. Purview of the Information Technology Act, 2000</b>	<b>323</b>
Introduction	323
Statement of Objects and Reasons	323
An overview of the Act	326
Application of the Act – the extra-territorial effect	326
Digital signatures	328
Is digital signature legal?	329
Controller of Certifying Authorities	331
Functions and powers of the Controller	331

Controller to act as repository	332
Recognition of foreign certifying authorities	333
Power to investigate contraventions	333
Power of Controller to give directions	334
Directions to extend facilities to decrypt information	334
License to issue Digital Signature Certificates	335
Who can apply for license to issue Digital Signature Certificate	335
Application for license	335
Renewal of license	336
Procedure for grant or rejection of license	336
Revocation/suspension of license	336
Power to delegate	337
Duties of the Certifying Authority	338
Issuance, suspension and revocation of Digital Signature Certificates	339
Issuance of a Digital Signature Certificate	339
Suspension of Digital Signature Certificate	340
Revocation of Digital Signature Certificate	341
Notice of suspension or revocation	342
Duties of subscribers	342
Acceptance of Digital Signature Certificate	342
Generating key pair	343
Control of private key	343
Failure of a subscriber to perform duties	344
E-governance	344
Functional-equivalent approach	345
Legal recognition of electronic records	346
Legal recognition of digital signatures	346
Use of electronic records and digital signatures in government and its agencies	347
Retention of electronic records	348
Publication of rule, regulation, etc., in electronic Gazette	350
No right to insist on e-governance	351
Attribution, acknowledgement and despatch of electronic records	351
Attribution of electronic records	353
Acknowledgement of receipt of an electronic record	354
Form of acknowledgement	354
Effect of acknowledgement of receipt of an electronic record	355
Time and place of despatch and receipt of electronic record	357
Time of despatch of an electronic record	358
Time of Receipt of an electronic record	359
Place of despatch and receipt of an electronic record	360
Adjudication	361
Adjudicating Officer	361
Cyber Regulations Appellate Tribunal	363
Establishment of CRAT	363
Presiding officer of CRAT	363
Staff of CRAT	365
Appeal to and procedure and powers of the CRAT	365
Secure electronic record and secure digital signatures	367
Penalties and offences	369

Penalties	369
Offences	372
Investigation	375
Network service provider liability	377
Miscellaneous	377
Amendments to certain statutes	378
Amendment to the Indian Penal Code, 1860	379
Amendments to the Indian Evidence Act, 1872	381
Amendments to the Bankers' Books Evidence Act, 1891	382
Amendments to the Reserve Bank of India Act, 1934	383
Concluding remarks	383
<b>Appendices</b>	<b>385</b>
The Copyright Act, 1957	387
The Information Technology Act, 2000	438
<b>Index</b>	<b>489</b>
